**Programming**

**LABORATORY 3**

Task	Statement	Explanation
<b>2</b>	2-D array	Form double array and print it

**Task 2:** Kullanıcıdan, dizim oluşturmak için, satır ve kolon bilgisi isteyiniz ve dizin elemanlarını kullanıcı tarafından doldurulsun (**not: matris 10\*10' dan küçük olmalı**). Sonrasında, dizin yazdırma fonksiyonu oluşturulmalı ve dizin elemanları bu fonksiyon kullanılarak yazdırılmalıdır.

*Instructions for submission*

- For each task, separate assignment will be opened, and students should upload the their tasks to related assignment sections.
- Each c files must have specific name format as “id\_TASK-n\_main.c”. id is the student number. If your digit number of the student number lower than 12 please add zero to left side of your student number until reaching 12 digits.
- In the main c file, if you define functions, you should create separate c files for these functions, and you should give name them as “id\_TASK-1\_func1.c”. Similarly, id is the student number and fucn1 is the function name which we will give the name of it if you need to use function.

**As note:** The example naming is given in Fig.-1 for this student: id=000011111111 and has main function, and having func1 in the main function which is also submitted with separate c files.
